

Advance Your SI Knowledge & Network
with...

ASIP: Association of Sensory Integration Practice

“ASIP is a community built by ASI practitioners to focus on the real-world implementation of SI principles and strategies, bridging from theory into practice. It allows us to support each other in the ‘doing’ of SI, working out how to get the most value for our service users from our knowledge in all the tricky and not-like-the-textbooks settings in which we work.”

Friendly Journal Club • Exclusive Events for ASIP
Members Only • Discounted Course of the Month •
