A BETTER NIGHT'S SLEEP AWAITS YOU

INCREDIBLE SOUND...

How can you possibly get clear, great audio going **through** a pillow? First, our products use a bone conduction technology, which creates a unique resonance that permeates the entire pillow. Second, we pair them with our custom 1-Watt Bluetooth Amplifier, providing a deep bass and sound clarity you will be astonished by.

...THAT'S DESIGNED JUST FOR YOU

Enjoy a comfortable, effective relaxation and sleep solution that won't disrupt others. Based on our patented technology, our products deliver sound only you can hear. With Dreamapad products, you don't have to wear uncomfortable headphones or earbuds while in bed. Simply lay down with the Dreamapad pillow with built-in technology or slide the Aurras speaker under your current pillow and enjoy music without bothering anyone else.

Dreamapad products use a unique, patented technology which sends soothing sounds and sleep music through gentle vibrations to your body, triggering a natural calming response. Allowing your brain to slow down, relax, and send you off to dream quickly for a quality night's sleep.

Enjoy a comfortable, effective solution that won't disrupt others. Our products are designed to help those with sleep problems that may be caused by stress, anxiety, restlessness, PTSD, autism, ADHD, traumatic brain injury, and other conditions.
