

# Stroke Group Network Conference

Monday 10 – Tuesday 11 October 2022

Online event

The Stroke Group Network Conference programme is planned and shaped with the needs of group leaders and volunteers in mind. It will bring together those involved in leading and volunteering at stroke support groups from across the UK to:

- connect and learn from each other
- hear updates from the Stroke Association and the healthcare system
- and celebrate groups and all they achieve.

All talks will be delivered live, in an easy to follow information style with key information shared on screen. The structure and timings have been carefully set out for maximum accessibility by all members of the audience.

During the main talks an online chat box will be available, here you can write any comments, ask questions or express your feelings with emoji's.

There's also an opportunity to drop into a breakout room where you have an informal discussion about the previous talk or simply connect and chat with our other attendees.

# Stroke Group Network Conference

Monday 10 – Tuesday 11 October 2022

Online event
