

Help Patients and Visitors Stay Connected with Safe and Secure Mobile Phone Charging

Why mobile device charging for the NHS?

- Reduce Pressure on Staff - increase staff productivity as they no longer have to deal with charging requests
- Improve Patient Experience - patients rely on their devices when experiencing extended waiting times
- Alleviate Patient Anxiety - patients and visitors can stay connected with loved ones
- Enhance Hospital Safety - reduce the uncontrolled use of sockets, which can result in H&S and fire risks

Why ChargeBox?

- Fast - zero to 50-60% battery charge in 30 minutes
- Free - for the end user
- Simplicity - user experience is key
- We only use manufacturer-approved components and we enhance and strengthen them
- Less staff intervention - no management of the solution needed
- We guarantee a safe charge and a secure charge
