

Building comfort at a time of loss

United Lincolnshire Hospitals Charity

Introducing the Penny Suite

Working with other local charities and groups we were able to collectively support the refurbishment of the bereavement room as part of our Maternity Ward at Pilgrim Hospital Boston, the Penny Suite took a cold and clinical environment to create a place that is warm and comforting.

We supported this space alongside 4 Louis and the East Lincolnshire SANDS group. Once the items had been sourced via procurement it was all systems go!

The comforting Penny Suite, with walled bed, corner sofa and kitchenette allowing families uninterrupted time with their baby.

“

People are astonished by the room and everyone who has used the room says how lovely it is and how it has enabled them to help make a positive difference to an extremely difficult experience.

”

- Rachel Bond,
Bereavement Midwife

Families have used this space since it's opening Summer 2022

Additions

We supported this room with over £16,000 worth of funding. We were able to purchase the LED Sky Panel, the sofa and specialist walled bed that forms part of the suite.

When we visited the Penny Suite, it was a bittersweet moment to take in the purpose of the room but to be given the comfort of how much of an impact this will have to those that will need to use it.
