

# Working Together to Deliver Gold Standard Staff Wellbeing

## Worcestershire Acute Hospital Charity

### Enhancing the Trust Staff Wellbeing Offer

The Charity have worked closely with our Trust's HR team and members of the Health and Wellbeing Steering Group to strategically use charitable funds to enhance Staff Wellbeing.

By working together we have been able to enhance the promotion and understanding of the Trust wellbeing offer whilst identifying the gaps where the charity could step in.

This has resulted in targeted projects such as:

- Carer Support Programme
- Menopause Support Programme
- Financial Wellbeing Hub
- Wellbeing Wishlists
- Walk the Wards Programme

*Members of our Urgent Care team enjoying a charity funded Staff Wellbeing session*

### Next Steps

The charity are working with the Trust to deliver a "Wellbeing Matters Day" for 100 staff. This event is designed to bring together staff from across the Trust, all sites, roles and bands and provide a dedicated space and time to discuss staff wellbeing at our Trust and propose solutions to the most pressing issues that staff are facing.
